

Dear Special Wish:

Our thanks to you comes late as has everything in our lives for the past year! But I must tell you how many hours I have thought of how loving you all are and have been to us. Our son, Jonathan was diagnosed with a rare disease called spinal muscular atrophy at 6 weeks of age. We had an extremely difficult time with this news. We did all we could to make a special nursery for him, and for the needs that would arise. A very kind friend suggested we speak to someone at A Special Wish and we received an immediate response. We wanted to put a large comfortable rocker/recliner in Jonathan's room so we would be able to hold and comfort him and even sleep in it with him when needed. We also asked for a ceiling fan to cool him with the hot summer fast approaching. Well, you gave it all to us! Jonathan's disease took all movement from him, so you can't imagine the time we spent in his chair. I can't express how much I wish to thank you!

Our little Jonathan died in that chair, in my arms and that was the only wish I asked God for. Wishes really do come true.

Therese B.
